Beonic Awarded Sourcewell Cooperative Purchasing Contract

Minneapolis, MN – 5 May 2025– Beonic, a global leader in AI-powered solutions for crowd management, operational optimization, and real-time insights, today announced it has been awarded a cooperative purchasing contract by Sourcewell in the category of *Passenger and Crowd Flow Management Solutions and Related Products*. This highlights Beonic's dedication to transforming environments through data-driven, AI-powered technologies that enhance operational efficiency and deliver tangible results.

Sourcewell, a self-funded governmental organization established in 1978, facilitates a cooperative purchasing program that harnesses the collective purchasing power of more than 50,000 participating agencies. By streamlining procurement with pre-negotiated, competitive contracts, Sourcewell enables government, educational, and nonprofit organizations to secure cost-effective and efficient purchasing solutions.

Beonic secured a Sourcewell contract following a rigorous request for proposal (RFP) process, ensuring compliance with local procurement requirements, and delivering exceptional value and service. This partnership grants any public agency access to purchase from Beonic through a ready-to-use, Sourcewell-vetted contract, streamlining the public purchasing process.

"We are honored to be recognised by Sourcewell as a trusted vendor," said Billy Tucker, CEO of Beonic. "This partnership underscores our commitment to providing exceptional value and service to public sector organizations."

About Beonic's awarded contract

Beonic's inclusion as an awarded vendor means that member organizations can now access our cutting-edge solutions through Sourcewell's streamlined procurement process. This eliminates the need for individual RFPs, allowing for faster and more efficient acquisition of our products and services
